

PUBLIC SERVICE ANNOUNCEMENT

Date: January 17, 2024
To: Media Outlets
From: Todd Darden, City Manager
Re: Water Filling Station

Due to the interruption of water service, the City of Big Spring is setting up a water container-filling station to ensure citizens have access to non-potable water. Citizens can bring their own jugs, receptacles, or containers to Fire Station #1 at 1401 Apron Drive (at the Airpark) from 5:00 p.m. until 8:00 p.m. tonight (January 17, 2024). We hope this will assist our citizens with water until water line repairs can be completed.

A case of drinking water (one per vehicle) will be available while supplies last.

The City of Big Spring apologizes for the inconvenience to our citizens. The Utilities Department will continue to work and repair lines until water service is restored to our citizens.

Anyone with questions or concerns can contact the Public Works office at 432-264-2501.
